

Professional Driving

National Qualification NQF 3

SAQA ID: 50285. (146 Credits)

Welcome to SA Campus Online!

SA CAMPUS is an online education and training company.

Online studies are designed for students whose scheduling commitments would otherwise make it difficult to enrol in a full-time higher education program.

Offered for individual courses, diplomas, associate's degrees and certificate programs, online studies are a valuable option. The resulting qualification a graduate receives after successfully completing.

Distance learning is an effective way to further your education. Congratulations on taking the first step to enhancing your career!

The training was so helpful in the day to day management of my own business. With SA Campus, I was able to study at my own time, managing to graduate while working full-time."

"I learnt so many things that I didn't know. The training was focused, in-depth, structured, balanced and straight to the point."

Education is
the **premise**
of progress

Kofi Annan

SA
CAMPUS

What is a LEARNERSHIP?

+

A Learnership combines theory with practical skills in a work environment.

The student receives a qualification registered on The National Qualifications Framework.

ENTRY REQUIREMENTS:

To complete a learnership with SA Campus, you need to meet the following minimum entry requirements:

- You need to be at least 16 years old.
- You need to be able to read and write in English (as all the course material is in English).
- You need to be willing to study independently from home (with assistance from a tutor).

There are many courses that you can study even if you haven't completed Matric.

For some courses, though, additional entry requirements apply.

Please have a look at the course information pages in this brochure to see the full entry requirements for each course.

1. **National** Qualifications:

Wholesale and Retail Operations is registered on the National Qualifications Framework (NQF). This qualification is designed to prepare you for a career in human resource management, and is therefore focussed on equipping you with the skills that you need to succeed in the demanding modern-day merchandise related workplace.

- You will be assessed through online formative and summative assessment submissions.
- Assessment preparation will be done via an online quiz.
- Your tutor and assessor will provide assistance and feedback in order to ensure your success.

2. The **course content**:

The purpose of the qualification is to ensure competent professional driving competence in the road transport sector, thus improving earning capacity of professional drivers as well as transport sector professionalism and economic growth. The qualification is set to create an environment for growth and development of learners, by improving the employment prospects and marketable competence of drivers, and accelerating the redress of past unfair discrimination in education, training and employment opportunities. By setting the minimum standards contained in this qualification, professional driving education and training will also improve. Qualified learners are capable of:

1. Obtaining and communicating road transport operational information.
2. Assessing loads against given permissible load requirements.
3. Planning road transport service delivery that meets specified requirements.
4. Driving a vehicle conveying a specific freight commodity or category of passengers.

3. Competencies:

After successful completion of this qualification, learners will be able to :

1

Understand the sector
in which they work.

2

Provide customers with
a high level of service.

3

Operate effectively
and efficiently in their
area of specialisation.

4. Rationale:

Learners credited with this qualification are working, or intend working, in the commercial road transport industry as drivers. This qualification builds on light vehicle driving competence, and credits competent drivers, who are driving vehicles carrying freight or passengers for commercial purposes.

The demand for this qualification lies primarily in the transport industry's requirement for drivers to have employable competence beyond that of a basic driving license and professional driving permit. Currently, more than 7000 individuals work in the sector that would benefit from this qualification. Learners can be persons entering the sector, persons already working in the sector as drivers, persons already working in the field in a non-driving capacity, and/or self employed persons within the sector.
